### LETTER OF RECOMMENDATION

I am delighted to recommend Naomi Ndashi a 2023 Kuban State Technological University graduate, for the International Internship New Generation Program under the track "Ecology and Tourism-Formation of Public Support in Specially Protected Natural Area of Perm Krai," focusing on Ecology and Tourism.

During her time at our university, Naomi demonstrated exceptional dedication to her studies in ecology and she took an online training on Ecological Conservation. Her academic performance was outstanding, consistently achieving top grades in her coursework and contributing valuable insights during class discussions and projects. Naomi's thesis on sustainable Ecological practices showcased her deep understanding of environmental conservation and her ability to apply theoretical knowledge to practical challenges.

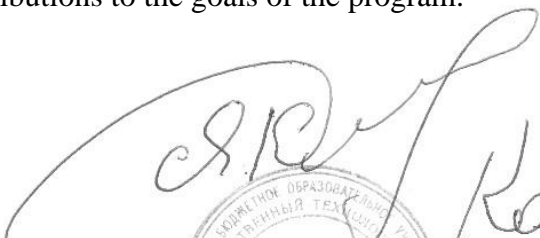

Naomi has also been actively involved in various environmental initiatives on and off campus. She played a key role in organizing eco-friendly events and participated in community outreach programs promoting environmental awareness. Her ability to engage with the public and foster community support for environmental causes makes her an ideal candidate for this internship.

I am confident that Naomi's strong analytical skills, coupled with her passion for ecological conservation, will make her a valuable asset to the "Ecology and Tourism-Formation of Public Support in Specially Protected Natural Area of Perm Krai" program. Her enthusiasm, commitment, and ability to work collaboratively will undoubtedly contribute to the success of the internship.

I highly recommend Naomi Ndashi for this opportunity and believe she will excel in her role, making significant contributions to the goals of the program.

Yours faithfully,

Dean of the Faculty.

  
 Kashin Y. M.
