## PROFILE

I am a motivated and results-driven recent graduate with a Bachelor's degree in Electrical Power and Electrical Engineering. Passionate about contributing to the field of electrical engineering, I possess a solid foundation in power systems, circuit analysis, and electrical design. My passion for the field coupled with practical projects I took at university, have equipped with the necessary qualities necessary to excel in this industry.

## SKILLS

- Computer Literacy
- Problem-Solving
- Attention to Detail
- Critical Thinking

## LANGUAGES

- English
- Russian
- Bemba

## EDUCATION

### SECONDARY SCHOOL

Matero Girls Secondary School  
2013 - 2015

### BACHELOR OF ELECTRICAL POWER AND ELECTRICAL ENGINEERING

Kuban State Technological University  
2018 - 2023

## EXPERIENCE

### DEVELOPMENT OF ELECTRICAL INDUSTRIAL REGION

Kuban State Technological University

2023

- Explored the planning, design, and management of electrical industrial zones with a focus on infrastructure development.
- Gained insight into safety protocols, regulatory compliance, and environmental regulations governing electrical manufacturing facilities.
- Examined economic impact, including job creation and investment attraction in electrical industrial regions.
- Ecological coursework on conservation with online training in ecology.

### DESIGNED POWER AND LIGHTING LOADS FOR SMALL HYDRO POWER PLANTS

Kuban State Technological University

2022

- Conducted electrical load calculations to ensure efficient and reliable power distribution
- Explored principles of lighting design, including fixture selection and energy-efficient solutions.
- Studied electrical system integration for enhanced power generation and distribution in small hydro power plants.

Dear Selection Committee

I am writing to express my sincere interest in participating in the New Generation Program under the track "Ecology and Tourism-Formation of Public Support in Specially Protected Natural Area of Perm Krai." As an aspiring environmental enthusiast with a passion for sustainable tourism and conservation, this opportunity resonates deeply with my academic and personal pursuits.

Ecology and tourism intersect in profound ways, especially within specially protected natural areas like Perm Krai. These regions not only harbor invaluable biodiversity but also serve as vital resources for local communities and global ecosystems. However, the delicate balance between tourism development and environmental preservation requires careful navigation and proactive engagement.

My motivation to participate in this internship stems from a belief in the power of grassroots and having taken Ecology as a subject at Kuban State Technological University and also coming from a commercial agricultural background that alone instilled in me a deep appreciation for sustainable agriculture practices and environmental conservation. Through coursework, research projects, and hands-on experiences, I have developed a solid understanding of ecological systems and the importance of preserving natural habitats. I am eager to contribute to the efforts aimed at building public support for the conservation of Perm Krai's natural treasures. By actively engaging with local stakeholders, educating visitors about the ecological significance of the area, and developing innovative strategies for sustainable tourism, I hope to make a meaningful impact on both the environment and the communities that depend on it.

Furthermore, this internship presents a unique opportunity for personal and professional growth. Immersing myself in the rich biodiversity and cultural heritage of Perm Krai will broaden my understanding of environmental challenges and conservation strategies in a real-world context. I am excited to collaborate with like-minded individuals, learn from local experts, and apply my knowledge and skills to address pressing environmental issues.

In conclusion, I am deeply committed to promoting environmental stewardship and fostering sustainable tourism practices not only for locals of Perm Krai but also to implementing diversified information back home in Zambia, which will enhance our local communities with conservative initiatives and for the nation at large. The "Formation of Public Support in Specially Protected Natural Area of Perm Krai" internship aligns perfectly with my academic background, interests, and career aspirations. I am confident that my dedication, enthusiasm, and willingness to learn will enable me to contribute positively to the objectives of the program.

Thank you for considering my application. I look forward to the opportunity to contribute to your team and make a meaningful difference in Perm Krai's conservation efforts.

Sincerely,

Naomi Ndashi

### LETTER OF RECOMMENDATION

I am delighted to recommend Naomi Ndashi a 2023 Kuban State Technological University graduate, for the International Internship New Generation Program under the track "Ecology and Tourism-Formation of Public Support in Specially Protected Natural Area of Perm Krai," focusing on Ecology and Tourism.

During her time at our university, Naomi demonstrated exceptional dedication to her studies in ecology and she took an online training on Ecological Conservation. Her academic performance was outstanding, consistently achieving top grades in her coursework and contributing valuable insights during class discussions and projects. Naomi's thesis on sustainable Ecological practices showcased her deep understanding of environmental conservation and her ability to apply theoretical knowledge to practical challenges.

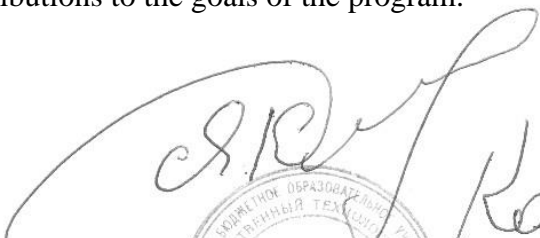

Naomi has also been actively involved in various environmental initiatives on and off campus. She played a key role in organizing eco-friendly events and participated in community outreach programs promoting environmental awareness. Her ability to engage with the public and foster community support for environmental causes makes her an ideal candidate for this internship.

I am confident that Naomi's strong analytical skills, coupled with her passion for ecological conservation, will make her a valuable asset to the "Ecology and Tourism-Formation of Public Support in Specially Protected Natural Area of Perm Krai" program. Her enthusiasm, commitment, and ability to work collaboratively will undoubtedly contribute to the success of the internship.

I highly recommend Naomi Ndashi for this opportunity and believe she will excel in her role, making significant contributions to the goals of the program.

Yours faithfully,

Dean of the Faculty.

  
 Kashin Y. M.
